WORK EXPERIENCE

Junior Web Developer Intern , Exceed Digital Solutions **March 2024 - June 2024**

- Collaborated with team to create web designs on Figma, translating client requirements into wireframes and prototypes.
 - Assisted in frontend design and layout adjustments to improve user experience and responsiveness.
 - Developed and customized WordPress-based websites using Cornerstone page builder and custom HTML/CSS.
-

PROJECT

Medipaws **Capstone Project**

Veterinary Clinic System with an Inventory, Appointment and Record management System.

- Developed a scalable relational database from scratch using MySQL, applying normalization techniques to eliminate redundancy and ensure data integrity across clients, patients, appointments, and inventory modules.
 - Developed the back-end system using PHP and Laravel Framework, integrating secure CRUD operations and relational data handling for medical records, client profiles, and stock management.
-

EDUCATION

Bachelor of Science in Information Technology **June 2019 - Oct 2024**

Polytechnic University of the Philippines Santa Rosa Campus

- Applied system analysis and design methodologies, including use case diagrams, flowcharts, and technical documentation for academic projects.
 - Designed and analyzed system workflows as a Business Analyst, creating FSD, DFD, and UI/UX wireframes to define system requirements and user needs.
-
